4-H Livestock Club

The 4H/FFA Livestock Club met on February 20, 2023, for education taught by **Agriculture Agent Michelle Simon**. The members learned from the inside out, getting hands on experience with the anatomy of cattle and pigs. As they discussed how the different organs function and how they each play an important role in the body, the members were able to see and touch the organs. Members also had the opportunity to practiced tagging cattle ears.

Animal validations procedures were discussed. This year participants will need to order their own tags and submit their animal DNA to the state by specific deadlines. See <https://afs.ca.uky.edu/4h-youth/validations> for more information.

The next meeting will be March 20, 2023. All members must have 6 hours of education before animal validation of their species or country ham speeches. Another education opportunity is available at the March meeting, where Southern States will be presenting on animal nutrition.

INSPIRE COUNTY'S FUTURE LEADERS

Ag Tag \$10 Donation Benefits 4-H

In 2022, Campbell County raised \$3370.00 through the Ag Tag Voluntary Donation program. That's money that goes directly to Kentucky 4-H, Kentucky FFA and Kentucky Proud to support our agriculture community (and its future) here locally and across the Commonwealth.

Agriculture is vital to the livelihood of every Kentuckian and it is through programs like Kentucky 4-H and Kentucky FFA that we continue to instill these values in youth. Each simple \$10 donation made when renewing an Ag Tag culminates to have a major impact on the youth of Campbell County.

Kentucky 4-H is one of the most important and influential youth programs in our state and our county. Across Kentucky over 138,600 youth ages 9 to 19 learn about leadership, citizenship and life skills in "learn-by-doing" experiences such as communications and public speaking, through agriculture projects like livestock judging, science projects with robotics, 4-H Camp, Teen Conference, and many other 4-H programs and activities.

Here in Campbell County, over 3,000 youth belong to 4-H and are active in programs and activities such as 4-H Camp, 4-H Horse Camp, Horse and Livestock Clubs, Community Service Project Clubs, Baking Clubs, Prepare for Fair Club, Cloverbuds and the Alexandria Fair.

As we look to March for 2023 Ag Tag renewals, we ask that you remember to make your voluntary donations on each farm license plate you renew. If

every Countian renewing an Ag Tag were to make the voluntary \$10 donation, \$8,000.00 could be raised! Think of the impact that could have on your community and its future leaders!

Please help us in growing leaders, strengthening the agriculture community and funding opportunities for Campbell County youth this March through Ag Tag voluntary donations!

YOUR DONATION
GIVE \$10 WITH EACH AG TAG

YOUR COMMUNITY
HALF OF THE FUNDS FOR 4-H AND FFA COME BACK TO YOUR LOCAL CLUBS AND CHAPTERS IN YOUR COUNTY.

OUR LEADERS
SUPPORT STATEWIDE PROGRAMS IMPACTING 274,000 STUDENTS ENROLLED IN 4-H, FFA AND KY PROUD MEMBERS.

BY MAKING A \$10 DONATION WITH YOUR AG TAG, YOU ARE CHOOSING TO INVEST DIRECTLY INTO THE FUTURE OF KENTUCKY AGRICULTURE. DONATIONS ARE DIVIDED EQUALLY BETWEEN FFA, 4-H AND KENTUCKY PROUD WITH HALF GOING DIRECTLY BACK TO YOUR COUNTY. THANK YOU FOR YOUR SUPPORT.

Save the dates:
4-H Horse Camp
June 4-9, 2023!

4-H Dog Club

The Campbell County 4-H Dog Club met on February 23rd. They worked on the basic commands of sit and stay.

THIS MONTH'S TOPIC: ALL ABOUT ALLERGIES

Have you ever started sneezing when you were outside or in the woods? Do you know someone who starts to itch if they are around a certain animal, like cats or dogs? These reactions could be a sign of an allergy.

An allergy is your body's reaction to certain plants, animals, foods, insect bites, or other things. Your immune system — the way your body works to keep your insides healthy and germ free — protects you from diseases by fighting germs like bacteria and viruses. Sometimes, our body's immune system overreacts and tries to fight normal things like grass, pet hair, or certain foods. The sneezing, itching, and other reactions you get

Continued on the next page →

Allergies are no fun, and a lot of people have them. If you have allergies, talk to your parents or doctor.

→ Continued from the previous page

with allergies is your body's way of trying to get rid of the things that it thinks are dangerous for you.

The things that cause allergies (grass, pollen, foods, pet byproducts, insects, etc.) are called allergens. When you notice that you have a reaction to the same thing more than once, it can be a sign that you are allergic to that thing.

Different people can be allergic to different things, but some things that a lot of people are allergic to are:

- **Dust mites:** tiny insects that live in dust
- **Pets:** dander (dry skin), saliva (spit), urine (pee), or other things from animals
- **Pollen:** the fine dust from plants like grass, flowers, or trees
- **Mold or mildew:** small living things that grow in damp places
- **Foods:** such as milk, wheat, soy, eggs, nuts, seafood, and peanuts
- **Latex:** stretchy stuff that makes some of the gloves doctors and dentists use

Allergens can cause a runny nose, itchy eyes and ears, sneezing, or a sore throat. Other items on the list, such as foods, can cause hives or a rash, stomach cramps, throwing

up, or diarrhea. Rarely, allergens can cause breathing problems like wheezing or asthma.

Some allergens, such as foods, are a problem all year long. Others might bother people only during certain times of the year. These are called seasonal allergies. For example, you might be allergic to pollen from trees, which is in the air only in the spring. Seasonal allergies happen a lot in places like Kentucky.

If you have symptoms of allergies, a doctor can help you feel better by figuring out what you are allergic to. Then, the doctor can help you and your parents come up with a plan to avoid certain things (if you are allergic to a food or animal, for example). Or they can give you medicine to take to help with your symptoms.

Allergies are no fun, and a lot of people have them. If you have allergies, talk to your parents or doctor about how to make them feel better. If you have a friend with allergies, you can help them stay away from things that they are not supposed to be around to keep them feeling good.
